

CiftLab

Software for Lab Management System

CiftLab is a one-stop solution software for Clinical Diagnostic Laboratories ranging from small labs to advanced hi-tech Laboratories. Software is built on the client server technology, the product addresses all the aspects of Laboratory operations - from test registration, test reporting, Cash & Credit a/c, Lab inventory and equipment maintenance. The product addresses all types of customers like Insurance, corporate, Hospitals and walk-in patients etc. CiftLab comes with a ready to use pre-defined clinical test format Database. This helps the diagnostic laboratories to go on line in a very short Period of time. The best performance is under a networked environment with data sharing across the network.
